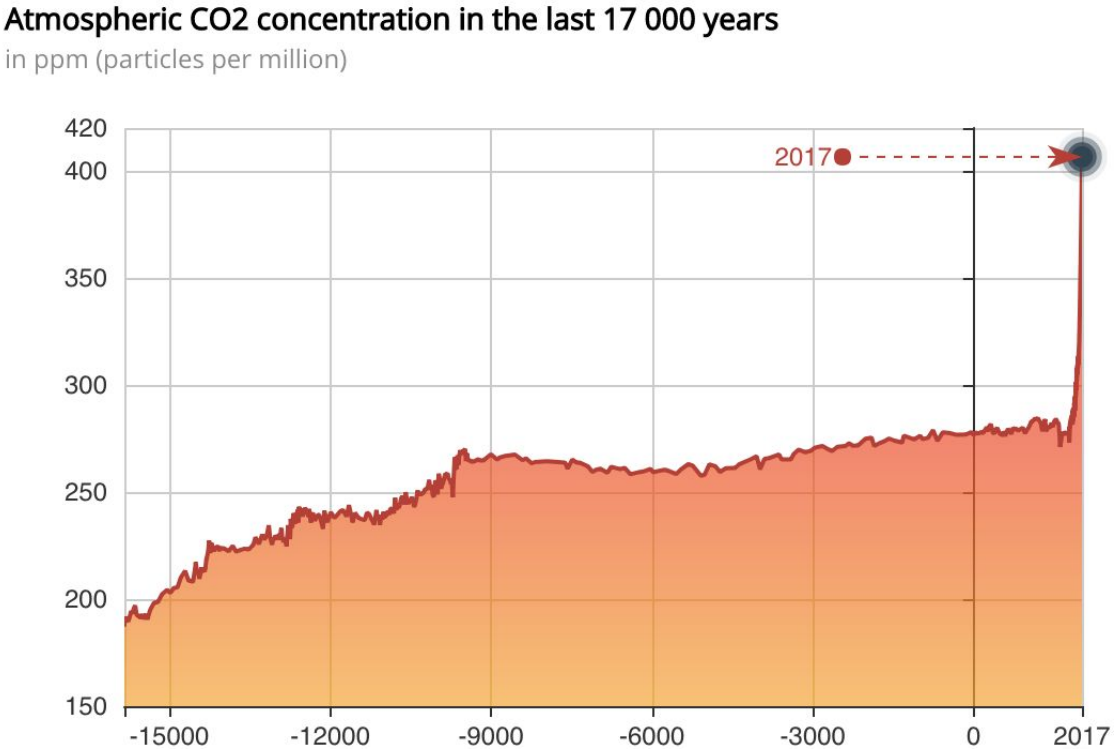
Tomorrow

the carbon impact of everything
made accessible to everyone

Olivier Corradi / @corradio
olivier.corradi@tmrow.com

tmrow.com

The biggest challenge of our time



People care about climate change, but don’t know how to act

« what can I **personally** do to fight climate change? »

« It’s too **cumbersome** to understand »

Our mission

Organise the world's **carbon data** and

make it **widely accessible and useful**

electricitymap.org

How clean your electricity is, **right now**

- Built in 2016
- 3000 daily visitors, >1 million visits in 2018
- >700 github contributions with >90 country integrations
- Used in classrooms, universities, by policy makers..

March 19, 2018 7:00 AM

api.electricitymap.org

Real-time electricity & carbon API with forecasts

Precisely measure the origin of your electricity and optimize your emissions using data from over 100 geographies worldwide.

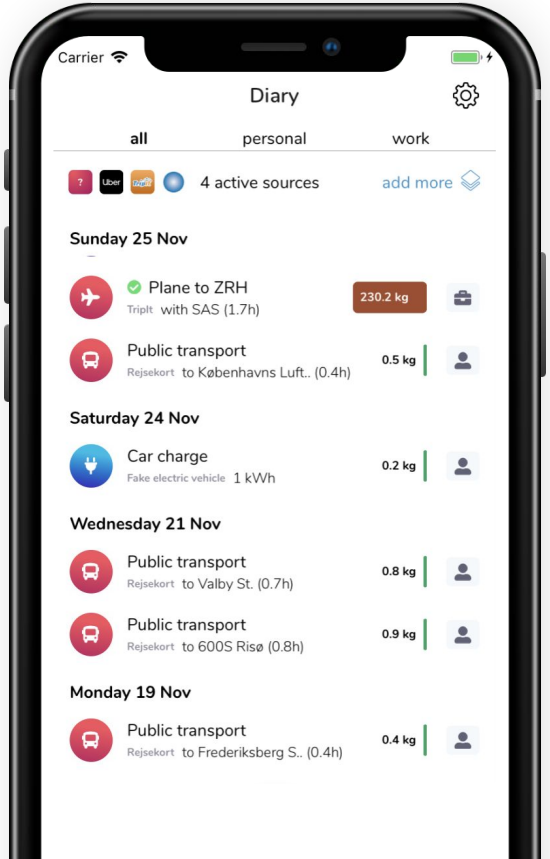
What about the rest of our emissions?

What if..

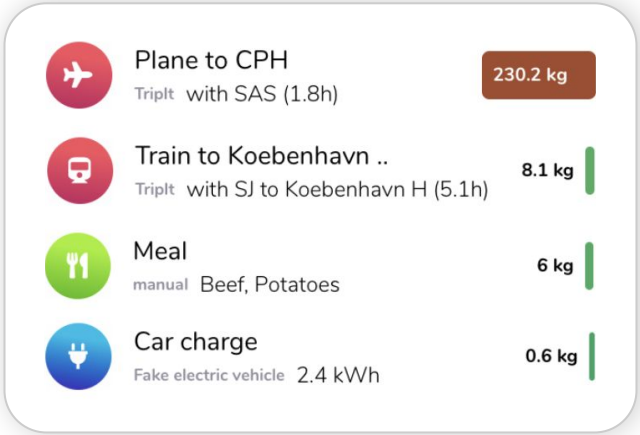
An app that **automatically** computes

the carbon footprint of your **daily activities**?

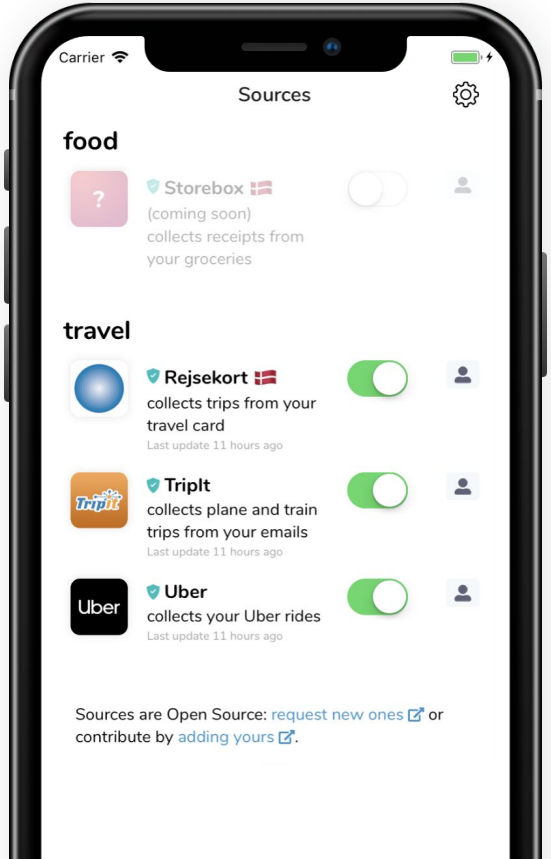
https://**tmrow.app**



Discover and learn the impact of your daily activities

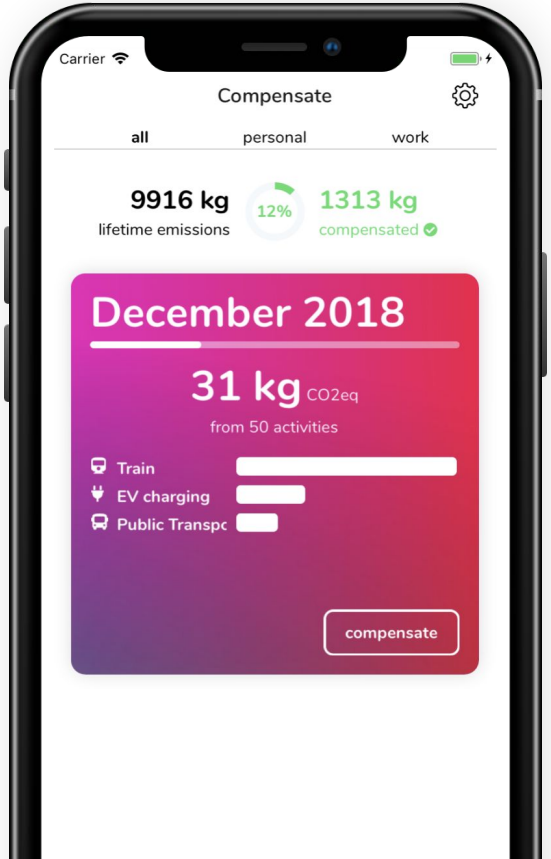


https://**tmrow.app**



Community-driven
integrations with 3rd parties

https://**tmrow.app**



Become carbon-neutral

(through a vetted list of partners)

We seek to **create a movement** where

individuals are **empowered** to combat climate change
